REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The Applicant claims an integrated sealed secondary battery comprising a plurality of cells arranged in a row within rectangular tubular cases having a bottom, with their upper ends being sealed; first cooling medium passages formed on a first side and a second side of the row of cells and having top and bottom walls; second cooling medium passages formed between the cases of the cells that communicate with the first passages; projection strips provided in the first cooling medium passages such as to alternately extend downwards from the top wall and upwards from the bottom wall of the first cooling medium passages so that the first cooling passages meander upwards and downwards; and air escape apertures formed between the top wall of the cooling medium passages and top ends of the projection strips that extend downwards from the top wall of the cooling medium passages.

The prior art of record does not teach projection strips provided in the first cooling medium passages such as to alternately extend downwards from a top wall and upwards from a bottom wall so that the first cooling passages meander upwards and downwards.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
